Fruits

"Pingouin et le Figuier"

(in *"Le Théâtre des Animaux"*)

As you know, Penguin likes *figs* very much.

The figs come from the *fig tree*, which is a *fruit tree*. But not only trees bear fruit. There are also fruits produced from plants.

In the next table I mention the name of some fruits, nine out of which are fruits produced from other plants rather than trees. Have fun finding these nine fruits... by mouse clicking!

almonds	cherries	pomegranate
red currants	figs	apples
walnuts	black currants	plums
quince	pineapple	lemon
melon	peaches	strawberries
blackberries	chestnuts	grapes
oranges	olives	coconuts
avocado	pears	mulberries
raspberries	nectarines	bananas

P.S. To answer most of the questions above you may read "Le Théâtre des Animaux" and visit the children's website www.barry4kids.net.
